## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-5 are allowed.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-5 is the inclusion of the limitations of: an outer tube having a first upper chamber defined at an upper portion of the outer tube, a lower chamber defined at a lower portion thereof, a middle portion between the first upper chamber and the lower chamber, an arcuate slot transversally defined at an outer periphery of the middle portion of the outer tube, an opening defined in a face defining the arcuate slot and through the outer tube, a button pivotally mounted in the arcuate slot and having a finger formed at a first end of the button and extending in the outer tube through the opening, and multiple first teeth formed at an inner wall of the finger; and an inner tube having an upper part received in the first upper chamber of the outer tube, a lower part received in the middle portion of the outer tube, a second upper chamber defined at the upper part of the inner tube, and multiple second teeth formed at the lower part of the inner tube and matching the first teeth of the button. It is these limitations found in each of the claims, as they are claimed in the combination that have not been found, taught or suggested by the prior art of record, which make these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Prior Art Citations***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

1) Smith (U. S. Pat. No. 5291817) is entitled "Adjustable barrel tuning apparatus for use with a woodwind musical instrument".

2) Allen et al. (U. S. Pat. No. 6054644) is entitled "Interchangeable bore clarinet barrel system".

3) Eder (U. S. Pat. No. 5864076) is entitled "Clarinet barrel".

4) Goldstein et al. (U. S. Pat. No. 5249499) is entitled "Adjustable tuning barrel".

5) Bushnell (U. S. Pat. No. 2802387) is entitled "Tuning device for musical instruments".

***Contact Information***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jianchun Qin whose telephone number is (571) 272-5981. The examiner can normally be reached on 8am - 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lincoln Donovan can be reached on (571) 272-1988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
